How to Play

Sudoku is a logic puzzle played on a 9 × 9 grid divided into nine smaller 3 × 3 boxes. Some cells are filled with numbers (the clues); the rest are empty.

The goal is to fill every empty cell so that all three rules are satisfied at once:

1. Every row contains each of the numbers 1 – 9 exactly once.
2. Every column contains each of the numbers 1 – 9 exactly once.
3. Every 3 × 3 box contains each of the numbers 1 – 9 exactly once.

Every puzzle in this book has been verified to have exactly one correct solution, reached by logic alone — no guessing.

Tips for getting started

- Work in pencil. You will change your mind, and that is a normal part of solving.

- Look for rows, columns, or 3 × 3 boxes that already have many clues. They are easier to complete first.

- When you find a number that can go in only one place, write it firmly. Each new entry tightens the puzzle.

- If you feel stuck, take a short break. A fresh look often reveals the next move.

A Helpful Technique: Scanning

Pick a number — say, the digit 5 — and look at where it already appears. Each row, column, and 3 × 3 box can contain only one 5. By eliminating the rows, columns, and boxes that already have a 5, you often find that only one cell is left where another 5 can go.

				5				
	5							
								5
5								
						5		
		5						
			5					
					5			

In this snapshot, look at row 5 (the empty middle row). Columns 1, 4, and 9 already have a 5 elsewhere in the puzzle, and so does the middle 3 × 3 box. Cross those out, and only one cell in row 5 can hold a 5. That is your next confident entry.

Full solutions are provided at the back of the book.

Table of Contents

Warm-Up Puzzles (6×6) 7
20 puzzles · 4/page · pages 8–12

Easy Puzzles 13
60 puzzles · 1/page · pages 14–73

Medium Puzzles 74
60 puzzles · 2/page · pages 75–104

Hard Puzzles 105
40 puzzles · 4/page · pages 106–115

Expert Puzzles 116
20 puzzles · 4/page · pages 117–121

Stuck? Hint System (3 Tiers) 122
5 extra clues · 10 extra clues · full solutions

Tier 3 — Full Solutions 137
200 solutions · pages 138–171

Each puzzle prints one per page in extra-large numbers.

Stuck?

A 3-Tier Hint System

Every puzzle in this book is solvable by pure logic, with no guessing required. But sometimes the next move is hiding in plain sight, and a small nudge is all you need.

Three progressive levels of help — choose how much to reveal:

Tier 1 — A Handful of Extra Clues

5 additional cells revealed (2 cells for the 6×6 warm-up).

Tier 2 — Twice the Help, Cumulative

Tier 1 hints repeated, plus 5 more cells (Tier 1 + 2 more for warm-up).

Tier 3 — Full Solution

The complete grid for verification once you have finished.

Each hint references a cell as RxCy (Row x, Column y).

Tier 1

5 extra cells per puzzle (2 for Warm-Up)

A handful of additional cells revealed — just enough to break a logjam without giving the puzzle away.

Tier 1 — Extra Clues

5 cells per puzzle · 2 cells for Warm-Up (6×6)
